Raipur.

Respected Sir/Madam

As all of us are aware, the Animation industry has been expanding phenomenally since the 1990s mainly as a consequence of the rapid expansion in satellite TV and the burgeoning Internet. To ride this growth wave, several established corporate groups have taken up various initiatives to establish themselves in the "Media & Entertainment" industry thus creating extremely profitable and dynamic opportunities dotting the global map. Lot of JOB's are available against a very less student's availability and hence there is a huge gap in Demand Vs availability.

Against the above backdrop, I would like to introduce our production house **Shubhkamna Productions** dealing in Film Production and Digital Marketing headed by **Mr. Nirmalesh Verma** having enriched industry experience of more than 25 years.

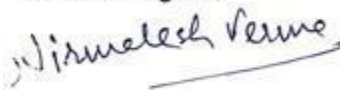

**Shubhkamna Productions** is willing to spread awareness of how these filed could help this generation to build a career in "Media & Entertainment" industry. For an industry which only requires skill set and creativity.

We would like to conduct a Seminar / Workshop with your College where students could be enlightened about the same.

We believe that together we could create awareness to your students about how they could choose to build a career in an industry which is only growing.

Waiting for your revert in anticipation along with tentative date for Seminar / Workshop.

Thanks & Regards,
